OCTOBER 2026

Christopher Todd has been in the interior design industry for over 30 years. Currently based in Las Vegas and Nashville, he designs projects throughout the country with meticulous attention to detail, creatively synthesizing each client's vision with his design and color sensibilities.

"I design for my clients. It's about them, not about me. I think about how people live, with a focus on 'Quality of Life' design. This new collection is truly a dream come true. With any other company, they wouldn't have been able to create the vision I had. At Hubbardton, there were no 'no's'. We focused on style and scale. For this collection, I was inspired by Greek design and the Art Deco period and developed a completely new style that you see in these pieces. I like different patterns and shapes that tell a story of structure. These pieces are very architectural. I'm so excited to see where this journey will go, and to see these designs in homes and hotels..."

CONTINUUM

Dramatic. Stunning. Sophisticated.
The Continuum 4-ring casts a soft, diffused halo that elevates any space, offering a striking focal point with a fluted silhouette that appears to be floating in air.
